DO OUR PRODUCTS WORK?

Good morning Vicki. My sister bought some cbs oil, green muscle extract and cookies for large dogs from you for me about a month ago for my dog that has hip displaysia. It has been such a blessing. I can't believe the difference in my pup. I would like to order another monthly batch please. My dog is a rescue dog so we don't really know what his mix is but he is the same size as our Labrador and weighs approximately 37kgs. So I see him as a large dog. If I could please get CBD oil, green muscle extract capsules and the CBD cookies please.

Dearest Vicki thank you for the most wonderful product! My dogs both have arthritis and hip dysplasia. Our female ridgeback could hardly walk properly due to pain in her elbow. Once we started giving her the drops on her cookies she gets everyday, she has improved 100% she can now run and play again. Our male dog is also more mobile. We have a little collie dog who is absolutely terrified of weather and airplanes. We did not know this when we moved to a house on the flight path. She also gets the drops and she is a happier, more relaxed dog now. Thanks again for helping our 4-footed children ! We appreciate you so much.

Good morning Vicki. Some feedback. Rocky has had the biscuits, takes them easily and they definitely seem to help. He has barked at the gate but lightening and so forth didn't send him insane like normal.

Benji will not eat the biscuits, I have been giving him 2 drops of the normal drops. Its the cancer drops, and again it has definitely taken the edge off, he has not had a runny tummy and in fact it has given him a bit of an appetite for which I am elated. I am very happy with your product and would love to continue on it.

I have not tried the biscuits yet ... too scared too ☺☺☺☺
